

40. Vocab Board Draw Relay

Make 2 teams and line them up as far away from the board as possible. Call out a word to the first members of each team, and they have to run to the board, draw the picture and run back to his/her next teammate. The process is repeated for each student and the team that finishes first is the winner. Variation: Teacher whispers the words. The student can only run back to his/her team when his teammates guess what the picture is.
