

6. Categories

Students will beg to play this game once they get the hang of it! It's a great way to fill up the last few minutes of class, too.

Have students draw six columns on their paper and write a category at the top of each column. You can choose categories that fit what you've been studying in class or go with some basics. Popular categories include food, names, cities or countries, furniture, verbs and clothing.

Choose a random letter and write it on the board. Give students enough time to write down a word for each category that starts with that letter. You can repeat with new letters as many times as you like.
