

9. What Am I Thinking Of?

If you've ever played 20 Questions, you already know how this game goes. To make it a little easier on your students, however, you're going to include some visual clues.

Pair students up and have them think of an object. Each student should write 5-10 words describing the object on a piece of paper. When you call time, the students swap papers and try to figure out what the other person described. The first team to have both words guessed correctly wins.
