

## 20. Phrasal Verb Match-Up

This is a game to test students' knowledge of phrasal verbs and help them to get a feel for using them.

For each group of 2-4 students make two piles of paper slips. On one pile write the verbs that you want to practise and on the other pile, prepositions which are commonly used in phrasal verbs.

**Example verbs:** come, give, go, get, hold, keep, make, put, see, set, take, turn.

**Example prepositions:** over, on, in, through, down, up, at, off, of, out, around, about, away, for, with, back, into.

A student in each group takes it in turns to turn over a slip from each pile, for example, they might get kept off. If the student thinks that it's a valid phrasal verb then they must use it in a sentence in order to get a point. The other students can challenge if they are sceptical, dictionaries and the teacher can be used to solve disputes.
